

LIMITLESS

— A U T O M O T I V E —

THE FUTURE OF ELECTRIC IS HERE.

BYD SEAL 6 DM-i

Essential | Super Hybrid Mid-Size Sedan

Intelligent efficiency. Sleek by design.

RIGHT-HAND-DRIVE MARKET

The BYD SEAL 6 DM-i Essential combines an electric-first driving experience with the reassurance of an efficient 1.5L petrol engine. Its refined design, spacious cabin and advanced DM-i technology make it a smart choice for everyday Caribbean driving.

PERFORMANCE & CAPABILITY

Electric-first performance. Hybrid confidence.

The SEAL 6 DM-i Essential is engineered to deliver smooth, responsive electric-first driving while its petrol engine supports longer journeys. Official Australian RHD specifications confirm a practical blend of performance, efficiency and everyday usability.

70 km NEDC

FUEL USE

1.1 L/100 km

DRAG COEFFICIENT

0.255 Cd

DM-i SUPER HYBRID TECHNOLOGY

BYD DM-i prioritises electric propulsion for quiet, efficient and responsive driving. The petrol engine works as part of the hybrid system when extra power or range is required, helping reduce fuel consumption without sacrificing daily convenience.

EFFICIENT BY DESIGN

An active air intake grille, integrated door handles and streamlined fastback profile help the SEAL 6 achieve an official drag coefficient of 0.255 Cd. The result is a refined sedan designed to move through the air with less resistance.

INTERIOR & TECHNOLOGY

Right-hand-drive comfort, connectivity and practicality.

The official RHD cabin combines clean design, intuitive controls and generous passenger space. A floating touchscreen anchors the dashboard, while premium materials and thoughtful storage make every journey more comfortable.
