INTERIOR & TECHNOLOGY

Right-hand-drive comfort and intelligent functionality

Inside the BYD SHARK 6, modern design meets practical usability, with a right-hand-drive cockpit created for connected driving and everyday comfort.

HIGHLIGHTS

Right-hand-drive cabin

50W wireless phone charging

540° transparent chassis camera

Digital, driver-focused cockpit

Comfortable double-cab seating

Smart everyday practicality

The BYD SHARK 6 cabin delivers a premium, tech-forward experience built around the driver. A high-definition central touchscreen, digital instrumentation and intuitive controls keep everything connected and within easy reach.

Thoughtfully designed storage, a spacious double-cab layout and supportive seating ensure comfort for every passenger. From daily commutes to weekend getaways, the SHARK 6 makes every journey more enjoyable.
